## **10.2. Patients are ineligible for refunds on Clinician's consultations**

**1)** Patients must agree to the treatment plan and prescribed medications in order for medications to be dispatched.

**2)** Patients have the opportunity to request a change in the initial prescription by messaging the Clinician, this could incur a further charge. PWC Clinicians and contracted Clinicians have autonomy over how they discuss or choose to prescribe treatment plans and do so in accordance with evidence based RACGP guidelines. Similar process to what would take place within a hospital or physical GP healthcare setting.

**3)** If a patient chooses to not go ahead with the consultation/treatment plan for any reason. Once questionnaires are submitted, these are then available instantly for our Clinicians and contracted Clinicians to review and prescribe accordingly. Refunds are not available once submitted, unless the Clinician determines they are unable to treat.

**10.3.** Patients are ineligible for a refund if they have decided they no longer want or require their treatment and the order is noted as "dispatched" on the portal.

**10.4.** Patients are ineligible for refunds if they cancel a booked clinician appointment within 24 hours of the appointment.

**10.5.** Patients are ineligible for a refund if a treatment plan proves ineffective.

1. With all medications, efficacy cannot be guaranteed, some treatments may prove effective for patients that have proved ineffective for others. Finding the correct treatment can be trial and error, this is indicative of the processes within hospital and GP healthcare settings also.

**10.6.** Patients are ineligible for a refund if an adverse reaction/unwanted side effects/event occurs.

1. With all medications, there are risks involved. PWC outlines the most common side effects associated specific to each treatment plan prior to a patient consenting to proceed with the prescribed treatment. PWC can also provide a link to an associated CMI (Consumer Medicines Information) document related to the specific medication if finer detail of the associated risks is required.

**10.7.** It is the patient's responsibility to be aware of when payment is to be deducted.

1. PWC does not allow for refunds if patients are out of the country or have simply forgotten about their appointment.

**10.8.** Patients are ineligible for refunds on their Clinician's consultation and/or treatment plan if once payment has been received, and have since visited their personal GP who has advised against the treatment. As long as a prescribing error has not occurred, a refund will not be issued.

1. Each Clinician has autonomy over how they prescribe and can have varying opinions on appropriate prescribing. PWC Clinicians prescribe according to the latest evidence based RACGP guidelines relevant to the associated patient treatment questionnaire.

**10.9.** Patients are ineligible for a refund on their treatment plan once payment has been processed and order is noted as “dispatched”, if their health circumstances have changed and subsequently prevents the patient from safely taking the initially prescribed treatment.

1. It is the patient’s responsibility to make PWC Clinicians aware of any change to their health history since their treatment plan was issued.

#### **Eligible Reasons for Refunds:**

**10.10.** A prescribing error was made by a PWC Clinician or contracted Clinician

**10.11.** Pharmacy dispensed the incorrect medication/medication strength/medication form

**10.12.** A technical issue identified within PWC caused the consultation to not take place within 3 days

**10.13.** A PWC Clinician cancels a consultation without reasonable notice
